PROBABLE SA-3 SAM  
TRAINING SITE IN MOSCOW AREA

25X1D

A probable SA-3 SAM training site has been newly identified in the Moscow area on small-format photography of [REDACTED]

The site is located at 56-00-15N 36-26-05E, 42 nautical miles (nm) west-northwest of Moscow and 3.5 nm east-southeast of Moscow SA-1 SAM Site E-30.

In configuration the site resembles the SA-3 sites deployed near Olenya. The service roads appear completed and at least two of the four launch points are revetted. A possible launcher is positioned at each launch point, and unidentified vehicles or pieces of equipment are observed at the centrally located probable guidance area.

The site is secured and is situated within a building area consisting of several administrative and barracks-type buildings and probable vehicle sheds. Its proximity to surrounding buildings suggests a probable training role for this site.

25X1D

Construction of the site has been accomplished since the area was observed on photography from KEYHOLE [REDACTED]
